Professional Experience

Since 2015

WebDesign and prototyping for e-learning softwares, **Logipro**, Le Puy-en-Velay, France.

2012-2015

WebDesign and layout of websites in Wordpress' environment in the company **MasterASP**. It is a company dedicated to the tourism sector (such as hotels and camping) creating responsive and JQuery mobile compatible versions. At the same time, I work as a free-lance in Sharepoint to IESE, H10Hotels and online stores. Also I get use to design corporate identity, new branding, business cards for new companies as a freelance.

2008-2012

I created the department of design and layout in **Spenta Consulting** under the platform of Sharepoint 2007/2013. Design a working methodology to integrate the process of development and layout, in order to improve project cycle and work in parallel. I also participate in OBA projects, Silverlight, Surface and WPF using Expression Blend and VisualStudio / TFS.

2008

I lead the design department in **Sanabre Communicates** where I develop and tracking in various phases of the project: information architecture, navigation flows, graphic design, layout in HTML + CSS and delivery.

2007

I became part of **Multiplica's staff**, company working in persuadability within digital media, to monetize Web applications and improve the conversion rate of the user. During my tenure at the company, I custom design and layout of landing pages, corporate websites, extranets, blogs and layout of the new insurance portal for "la Caixa" in Vignette, meeting accessibility standards AA.

2006

I keep working on the development of projects in **Indianwebs** where I specialize in os-commerce applications, joomla cms and adapting interfaces using html layout and style. I am in charge of coordinating projects with clients and achieve better positioning in Google indexes.

2005-2006

Start my career in **magma3interactiva**, where I design custom web applications, e-learning platforms, portals and corporate websites to the *Generalitat de Catalunya*, *Barcelona Activa*, and other companies. During this period I create custom courses for young students *Cibernàrium* where I teach seminars introduction to Flash, Photoshop, Digital Photography Video and other long-term courses (3 months).

2004-2005

School Internship in the company **magma3** where I participate in the development of design and conceptualization of projects.

Education

Primary Education: "St. Joan Bosco" school, Barcelona.

Secondary Education: "Stucom", Barcelona

Graduate in Multimedia in ESDi (School of Design) recognized by the University Ramon Llull (2000-2005)

Other studies of interest:

Course of web accesibility AAA taught in Multiplica (2007)

Basic course and advanced technology development of Silverlight and WPF UVIC (2008) by Spenta Consulting

Certified in Google Analytics 2014
